CAREER OBJECTIVE

Backend Developer Trainee with a strong foundation in JavaScript and Node.js. Completed MEAN-Stack Web Development training with hands-on experience in Node.js, Express.js, MongoDB, Angular, and Git/GitHub. Seeking a Backend Development internship to strengthen my practical skills, work on real-world applications, and contribute effectively to a development team.

EDUCATION

Egyptian E-Learning University
Undergraduate Student

Egypt
Expected Graduation: 2027

EXPERIENCE

MEAN-Stack Web Development Trainee
ITIDA & NTI

July 2026
120 Hours

Completed a 120-hour MEAN-Stack Web Development training program.

Gained practical experience with JavaScript, Node.js, Express.js, MongoDB, Angular, and Git/GitHub.

Practiced developing web applications through hands-on exercises and real-world development projects.

COURSES & CERTIFICATES

MEAN-Stack Web Development – ITIDA & NTI

Frontend Development – Elzero Web School

Node.js Development – Self-Study

Git & GitHub – Self-Study

SKILLS

Programming: JavaScript

Backend: Node.js, Express.js

Database: MongoDB

Frontend: HTML, CSS, Angular

Programming Concepts: Object-Oriented Programming (OOP)

Tools: Git, GitHub

Soft Skills: Problem Solving, Teamwork, Communication Skills, Time Management, Fast Learning, Adaptability

PROJECTS

Full-Stack Web Application
Full-Stack Project

HTML, CSS, JavaScript, Node.js

Worked with 1 teammate to build a complete full-stack web application.

Contributed mainly to the frontend development and implemented a major part of the project's 17-page user interface.

Participated in backend development and gained practical experience working with Node.js and backend functionality.

Used Git and GitHub for version control and team collaboration.

GitHub: github.com/AbdallhOmran

Frontend Web Project

Frontend Development

HTML, CSS, JavaScript

Developed 1 frontend web project while following Elzero Web School's frontend development course.

Practiced building responsive web pages using HTML, CSS, and JavaScript.

Applied frontend development concepts through practical implementation rather than only theoretical learning.

GitHub: github.com/AbdallhOmran

EXTRACURRICULAR ACTIVITIES

Participated in the ICPC programming competition.

Solved 50 programming problems on Codeforces to improve problem-solving and algorithmic thinking skills.

Practiced solving programming problem sheets using different problem-solving approaches.

Practiced analyzing programming problems and developing logical solutions using different problem-solving approaches.
